# THE STORY OF A LIFE WELL CRAFTED™

We believe distinctive stories are what make life exceptional. The discovery of time-honoured craft opens the door to stories unlike any other. Stories of place and provenance. Stories of dedication and passion. Stories of artistry and heritage.

Through Perrin & Rowe, you will find countless stories in every detail. And the closer you look, the more you will see the details of your own story. A story of a life well crafted.

# OUR FINISHES

Like the finest jewellery, Perrin & Rowe tapware has an exacting sense of proportion. We believe the best way to make the best is to bring together the foremost in innovation with time-tested techniques. Crafted in England, Perrin & Rowe designs reinterpret the past with the technology of the present.

Perrin & Rowe allows further customisation of the classical range, offering custom Black, Walnut or matching metal handle inserts in all the signature finishes.

## CHROME - CP

A shiny finish with a hint of blue for a classical or contemporary feel.

## NICKEL - NI

A shiny finish with a golden glow. If left, nickel will develop an aged patina similar to silverware, with the occasional polish restoring its original gleam.

## PEWTER - PF

A brushed nickel finish which is the perfect complement to stainless steel sinks and appliances.

## POLISHED BRASS - BR

This is uncoated bare brass with a smooth, polished finish. Brass oxidises over time to gain a characteristic patina.

## SATIN BRASS - SB

This is uncoated bare brass brushed for a satin look. Brass oxidises over time to gain a characteristic patina.

## GOLD - IG

This finish, which contains real Gold, will give a luxurious look.

# **KITCHEN COLLECTION**

Your kitchen tapware is one of the most important components of your kitchen. Invest in the best.

## **STYLES**

Perrin & Rowe have developed their kitchen tapware collections over decades resulting in an elegant and timeless offering. Available with lever handles or crosshead handles, in Classical, Contemporary and Country styles, we have the perfect kitchen tapware to suit your style of kitchen.

## **SPRAY RINSE TAPS**

Our bench mounted spray rinse taps have an amazing 1.2 metre hose reach, perfect for getting into the corners of farmhouse style butler sinks and rectangular stainless steel sinks. A spray rinse should be specified at the time you purchase your kitchen mixer as it cannot be added to later as it is an integral part of the tap mechanism.

## **BAR TAPS**

Our bar taps are specially designed with a shorter reach spout to suit the scale of a small prep sink, bar sink or kitchenette. These can also work perfectly in a bathroom setting.

## **WATER PRESSURE**

Our tapware is suitable for low and high water pressure, and meets the highest standards. Refer to the back pages for the finer details and all things technical.

## **ASSISTANCE WITH CHOOSING KITCHEN TAPWARE**

Your kitchen tap is the most utilised piece of equipment in your kitchen so choosing the perfect kitchen tapware is an important decision. Our expert consultants can help you choose the right kitchen tapware for your project. Visit us in store at our designer showrooms in Melbourne and Sydney, or view our collection online and email us your wish-list. We'll be happy to help.

## WHY CHOOSE A PERRIN & ROWE KITCHEN TAP?

Perrin & Rowe kitchen tapware reflects a harmony of beautiful design and well-planned functionality which is why they're specified by top designers and architects around the world. Their commitment to performance and durability ensures every kitchen tap is built to last a lifetime.

Our Perrin & Rowe kitchen tapware is manufactured exclusively in the United Kingdom. Perrin & Rowe kitchen taps feature hard-wearing ceramic, quarter-turn valves for a smooth on/off action and are fitted with aerators to promote a softer, splash-free flow of water. Each kitchen tap is precision engineered from high quality brass, hand assembled, and rigorously tested. All kitchen spouts rotate 360°.

# NOT JUST FOR KITCHEN...

**PERRIN & ROWE**  
L O N D O N

The simplicity of a balanced pair of Mayan taps is timeless. The Mayans look stunning in every setting from a modernist interior to Hamptons style beach house. They are outstanding in beauty and function in the kitchen and laundry and fit seamlessly beside the Ionian kitchen tap when used singly as a filtered water tap. In the bathroom, they work perfectly behind a deck mounted vanity basin.

All Perrin & Rowe taps feature excellent quarter-turn German made ceramic disc valves for many years of accurate and effortless use. The Mayans are the ideal design option in kitchens, bathrooms and laundries with unequal water pressure.

Perrin & Rowe taps have a world-wide reputation for original designs which are perfectly balanced in form and function. The hand of the maker is apparent in the attention to detail and finish of each tap which is fully assembled and tested before leaving the Perrin & Rowe factory in England.

# THE FINER DETAILS

## WHY PURCHASE PERRIN & ROWE MADE FOR AUSTRALIA?

The English Tapware Company is the dedicated source of Perrin & Rowe tapware in Australia. The English Tapware Company worked closely with Perrin & Rowe product designers and manufacturing teams in England to obtain Australian WaterMark certifications for the products they need to specially manufacture for Australia.

Whilst the visual appearance of Perrin & Rowe taps sold in other countries does not differ from those made for Australia, they are in fact very different. Taps produced for other countries are not made to Australian plumbing Standards nor WaterMark certified and a registered plumber is not able to legally install them into an Australian home. Local authorities check for WaterMark certification when a project is signed-off and insurance companies may decline a claim when non-WaterMark certified product has been installed.

Purchasing Perrin & Rowe products from The English Tapware Company ensures you receive goods that are compatible with Australian plumbing fittings and regulations and are WaterMark certified and WELS registered so they can be legally installed in Australia.

The English Tapware Company provides a warranty on all Perrin & Rowe tapware, accessories and bathroomware which it imports and sells in Australia. There is no warranty for privately imported product.

## DELIVERY TIMES

There is no stock warehouse at the Perrin & Rowe factory in England with every product made to order. The English Tapware Company orders in advance and maintains good stock levels in Australia for the majority of products and finishes. There will be times however, when higher than expected sales or demand for particular items will deplete our warehouse stock. We therefore encourage appropriate forward planning and that you communicate your project requirements at the earliest convenience.

## RETURNS

Purchased products will be considered for return by The English Tapware Company for a period of up to

three (3) months after the invoice date. In the event that The English Tapware Company agrees to accept a return, a 20% restocking fee may apply. Any product presented for return and/or credit must be unused and in saleable condition, including its original packaging. The packaging must be unmarked and free from labels. Failure to comply with these conditions may result in the return being declined.

## FREIGHT CHARGES

There is no additional freight charge for Perrin & Rowe tapware, stainless steel sinks and accessories deliveries within Australia. Look for our FREE SHIPPING icon on ranges that offer this service. Perrin & Rowe bathroomware deliveries may incur a freight charge per consignment. Please contact The English Tapware Company for further information and costings.

## BASIN & SINK WASTES

The English Tapware Company provides durable stainless steel basket strainer wastes for each kitchen sink outlet. Perrin & Rowe basin wastes are sold separately from their basin tap sets as there are several waste options to choose from. Please ensure that you include a suitable Perrin & Rowe waste in your order. A slotted waste will be necessary where the chosen basin has an overflow outlet.

## LOW WATER PRESSURES

Perrin & Rowe taps are compatible with most low water pressure installations. To support water conservation regulations, Perrin & Rowe kitchen taps are fitted with a flow controlling spout tip aerator. This limits the water output to 6 to 7.5 L/min to give a WELS Four Star rating. This flow rate is based on taps installed into homes with an incoming pressure of 150 to 500 kPa.

When Perrin & Rowe kitchen taps are installed into homes with low inlet water pressure of less than 150 kPa, we can change the spout tip aerator to a non-flow controlled version to achieve the 6 to 7.5 L/min flow rate.

The single lever shower mixers AU5506, AU5106 and AU5806 require 100 kPa to operate their internal pressure balancing valve.

Kitchen taps with a spray rinse requires a minimum inlet water pressure of 100 kPa to activate their diverter mechanism and a maximum of 500kPa.

FREIGHT RATES	Metro VIC	Metro NSW	Metro SA	Metro QLD	Metro WA	Regional towns VIC	Regional towns NSW	Regional towns SA	Regional towns QLD	Regional towns WA	TAS	To a rural address per delivery

## HANDLE ALIGNMENT

At Perrin & Rowe every detail counts. Every ceramic disc valve in a Perrin & Rowe product has an acetal handle alignment vernier positioned between the spindle of the valve and the spline of the handle. This vernier allows fine-tuning of the handle position during assembly and installation, for perfect handle orientation.

## CONSTRUCTION

Unlike some modern tapware that is made from chrome coloured plastics or aluminium alloys, Perrin & Rowe taps are still made from solid brass. Brass has proven to be the ultimate material for tapware, withstanding years of constant use and temperature variation without cracking or distortion.

## CERAMIC DISC VALVES

Superseding conventional tap washers, Perrin & Rowe taps are fitted with German ceramic disc valves, operating with a quarter turn from off to on. All valves and cartridges will provide many years of effortless operation, are easily replaced.

## 15 YEAR TAPWARE WARRANTY

Perrin & Rowe will, at its option, replace or repair any Perrin & Rowe tapware purchased from The English Tapware Company Limited or indirectly from The English Tapware Company Limited via an authorised Perrin & Rowe dealer in Australia with a manufacturing fault in materials or workmanship in the body for a five (5) year period from the date of purchase. An additional warranty applies for a further ten (10) years during which any warranty claim for a manufacturing fault can be rectified by the supply of replacement product or parts with any labour cost being the responsibility of the customer. This 15-year extended warranty only applies to products purchased after 1 April 2014.

There is a separate warranty for the consumables within the tap and for the finish.

## WARRANTY FOR CONSUMABLE COMPONENTS

Ceramic disc cartridges incorporated within Perrin & Rowe tapware are a consumable item and have a parts replacement warranty for five (5) years from the date of original purchase of the tap.

This consumable components warranty provides for the supply of replacement cartridges during this period. Flexible inlet hoses, handshower and kitchen tap spray rinse hoses, O rings and washers, non-return valves, poppet valves and aerator inserts are also consumable components and covered by a five (5) year parts replacement warranty from the date of purchase. This warranty excludes damage caused by misuse, improper installation or vandalism.

## WATERMARK CERTIFICATION

Perrin & Rowe manufactures kitchen taps, basin taps, bath taps and shower sets especially for The English Tapware Company in Australia using DZR (dezincification resistant) brass of the highest quality and with fittings which are compatible with Australian plumbing. WaterMark certification (license number WMKA02818) has been awarded to the Perrin & Rowe tapware which is made for Australia.

**PERRIN & ROWE TAPWARE SOLD ELSEWHERE IN THE WORLD IS NOT CERTIFIED FOR AUSTRALIA, CONTAINS DIFFERENT BRASS AND PLUMBING FITTINGS AND CANNOT BE LEGALLY INSTALLED.**

**WaterMark**  
AS/NZS 3718  
WMKA02818  
SAI Global

WaterMark certification must be shown on a visible part of the product as proof that a manufacturer's tapware design, materials and construction meet the requirements of the Australian tapware Standards. Inspectors will look for this certification mark.

## WELS CERTIFICATION

Perrin & Rowe kitchen and bathroom tapware has been tested and certified with a WELS Four Star rating under the Water Efficiency Labelling & Standards (WELS) scheme with License number 0150. Perrin & Rowe shower fittings outlets have a WELS Three Star rating.

Perrin & Rowe toilets supplied with a matching cistern and pan are fitted with high quality Geberit inlet and flush valves. These are operated with a dual flush push button giving 4 litres average flush, 6 litre full flush and 3 litre half flush. They have a WELS Three Star rating under License no. 0150.

Perrin & Rowe wall mounted and back-to-wall toilets are designed to be coupled to an in-wall cistern and frame such as made by Geberit Sigma8. When connected to the Geberit Sigma8 4.5/3L in-wall cistern, they achieve a 3.3 litre average flush, 4.5 litre full flush and a 3 litre half flush. They have a Four Star WELS rating under License no. 0150.

## DOCUMENTATION

For documentation including specification guides, dimensioned drawings, CAD files and product information please visit the specific product page at [www.perrinandrowe.com.au](http://www.perrinandrowe.com.au). Perrin & Rowe installation guides are included in all product boxes.

## ONLINE

Use our website [www.perrinandrowe.com.au](http://www.perrinandrowe.com.au) to create 'MY LIST' of products for your project. Submit it to us for consultation and we will contact you promptly to consult on your selection, provide a formal quote, advise on stock availability and progress your project further.
