## MARTHA BATH

*Drawing inspiration from a late 19th Century French double ended bath, the new Martha Bath by London based company The Water Monopoly is a luxurious addition to both modern and traditional bathrooms.*

*With an opportunity to select brass or copper as the bath's base material, subsequent finish options include high polish interior and exterior, tinned interior or a painted exterior.*

*The high polished baths are unlacquered to patina naturally over time. With a deep base and curved sides for additional comfort, the Martha inspires long hours of soaking, preferably with a glass of champagne in hand.*

## ROCKWELL TAPWARE

*Designed by The Water Monopoly and manufactured by Perrin & Rowe, the range is a celebration of colour, with ceramic handles and shower heads available in an assortment of vibrant candy hues.*

*The Rockwell Collection is an all-inclusive range including tapware, baths, toilets and basins. The full selection of tapware includes kitchen mixer taps, wall and basin mounted taps, showers, and wall or freestanding bath tapware.*

*This collection is truly playful, providing the chance to mix and match its wide variety of colours with Chrome, Nickel and Polished Brass metal finishes for serious individuality.*

*Whether fitting out a modest family home or a show-stopping hospitality space, Rockwell will have you covered.*

### SNOWDROP WHITE

*Clean and crisp, Rockwell's Snowdrop White captures the purity of freshly fallen snow.*

**LOVE STREET - ANNA SPIRO**

*A joyful celebration of Spiro's signature style, this home expresses the full spectrum of colour and texture in every room, underpinned by quality workmanship and versatile Perrin & Rowe tapware.*

Project credit: Anna Spiro Design

**FRANKLIN ROAD**

*A calm, warm space, oozing 'Tropical Modernism',  
Katie Lockhart champions celebrated architect  
Geoffery Bawa in this Ponsonby home. With a  
perfectly formed kitchen overlooking a private pool,  
this is a place you never want to leave.*

## ORGANO COLLECTION

*The Organo range is poured from real bronze using traditional casting methods so each piece is an art-form that celebrates the porosity of hand-cast bronze.*

*The Organo Collection is inspired by our natural environment, with shapes reminiscent of abstract petals, imperfect tree branches and smooth pebbles capturing the beauty of the organic form. Adaptable to both traditional and contemporary interiors, this delicate range provides a luxurious and textural addition to all interior spaces.*

*This hand-cast bronze collection offers four finish colourways, suitable for a variety of interior colour schemes. These finishes include Old Silver reminiscent of pitted pewter, a golden Light Bronze, a Dark Bronze that will polish up with use, and a verdant Old Green finish.*

## MOLTEN COLLECTION

*The Molten Texture collection draws inspiration from the candescence and malleability of molten lava, with its rippled and rugged texture setting in as it cools. They are made using traditional casting methods and feature the rough indentations which are also reminiscent of timber bark. Bring the power and beauty of nature into your design scheme with this beautiful collection.*

## COLLETT-ZARZYCKI COLLECTION

*Collett-Zarzycki, a respected London architecture practice, and Joseph Giles, leading designers and manufacturers of luxury architectural ironmongery, have partnered to create a stunning range of marble door and cabinet furniture for premium developments.*

*The finest Italian marbles including Black & Gold Portoro, White Onyx, Green Guatemala and Red Laguna provide the jewel-like finishing touches for the ultimate in luxury design schemes.*

*The range includes a door pull, a lever handle and cabinet pulls. All pieces have a cylindrical marble shaft, with minimalistic metal fixtures to ensure the marble remains the focal point.*

*"Using marble was a first for us, it's taken the finished product to a new level of luxury."  
Felix Ure*

### BRASS HEATED TOWEL RAILS

*Hawthorn Hill has raised the bar with its hand-made brass towel warmers. They represent the finest in workmanship, with high quality 32mm brass tubing and iconic ball corner joints creating feature pieces for the bathroom. While standard models are available, custom towel warmers can be made to order with variables of height, width and the number of rungs.*

*A floor-to-ceiling towel warmer from Hawthorn Hill is an inspired choice in modernist home designed by NZ Architect Julian Guthrie. In uncoated satin brass and custom made to fit the space – including provision to fit to the ceiling after floor mounting – the towel warmer is a focal point of the bathing space. The satin brass finish complements the satin brass of the Perrin & Rowe tapware and showers.*

*These towel warmers are either electrically heated with a replaceable element – the towel warmer never wears out – or hydronically heated by connection to a hot water central heating system. Hawthorn Hill's range of hydronic towel warmers includes models with an integral radiator, making them ideal to heat large or particularly cold bathrooms.*

*Available in a selection of quality finishes – chrome, nickel, pewter, gold, bronze, bare brass or satin brass, the Hawthorn Hill range will impart a wealth of style and functionality*

### GRAB RAILS

*Hawthorn Hill's Grab Rail Collection delivers the opportunity to add support, without compromising interior aesthetics.*

*They are available as either straight rails or L-shaped left or right-handed designs, in Contemporary, Traditional and Ornae styling.*

*Hand crafted in the UK from premium brass, they are finished to perfection in one of the Hawthorn Hill finishes: Chrome, Nickel, Brushed Nickel, Gold, Bronze, Polished Brass, Satin Brass, Antique Brass and Gunmetal.*

*Hawthorn Hill grab rails are tested for compliance with the Australasian Standard for Access and Disability, ready for installation into Australian and New Zealand homes.*

*They are moisture resistant, allowing them to be placed in showers and over baths, where they are most needed. They can be earthed to reduce static and electricity build-up, a requirement when fitted in wet areas. Available in a range of sizes and layouts, Hawthorn Hill Grab Rails can also be customised to combat any potential bathroom constraints.*

*These superior grab rails are a classy alternative to the basic, industrial fittings commonly prescribed for this purpose, offering stylish function where assistance is needed.*
